## Message From The Chairman's Pen

Dear Parents,

The partnership between school and parents is critical to securing the best possible experience for our students, your children. There are many opportunities to share information, discuss learning, and offer support throughout the year. This provides an early opportunity to see how children settle into their learning and discuss how best to secure a successful year.

One of the greatest Indian teachers, Swami Vivekananda believed in the infinite potential of humankind. According to him, "Education is the manifestation of perfection already in men." But, it is also true that no educational methodology can have its desired effect without the ability of the person disposed to employ it, that is, the teacher. Mindful of our heritage as a nation that is revered for its ideal "Guru-Shishya" dynamic, we, at Genius Group of Schools, are conscious of our responsibility and the trust placed in us by our parent and student community. We strive to create a stimulating, inclusive environment for every student by promoting curiosity over compliance and questioning over quiet. We aim to empower our students to become global citizens by providing them with a roadmap to opportunities for a better life through developing their potential.

Education is and always will be a challenging enterprise, especially in the current situation of the global pandemic, but I am confident that together we can overcome every challenge and help our "Worldites" become self-aware, resilient, and confident citizens prepared to take on the world and win!

## From The Editor's Desk

It is not in the stars to hold our destiny but in ourselves.

- William Shakespeare

Today, the role of a school is not only to pursue academic excellence but also to motivate and empower its students to be lifelong learners, critical thinkers, and productive members of an ever-changing global society. At Genius Group of Schools, we provide an atmosphere to our students for multifaceted development, where children are encouraged to channelize their potential in the pursuit of excellence. This can only be possible in a holistic, student-centric environment.

Learning is not progress limited to schools and colleges only, nor does it end with the conclusion of one's school career. It is indeed a lifelong process. This school is oriented to the total formation of a child and to the adaptation of various methods suiting the dynamics of changing world to achieve common goals and objectives. It is further characterized by shared vision-responsibilities and above all, love and faith in God to achieve these goals.

Dear students, it is my message to you all that people of fine character live by their values. They are honest and are committed to truthfulness, word, and deed. The true character thus encompasses the capacity for self-discipline.

Character creates self-respect, which in turn leads to high self-esteem. Maturity is reflected in all aspects of character-the decisions we make, the friends we choose, and the responsibilities we accept. Always remember to uphold the dignity of people. Be always ready to give preference to others. What you are is God's gift to you. What you become is your gift to God. Have something to live for. Bring out the best in you.

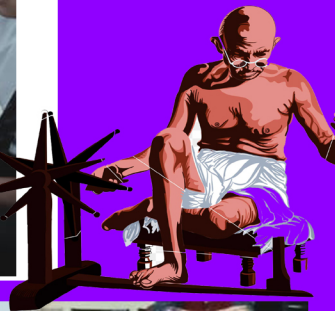

"With warm wishes and blessings"

- Dimple Mehta
