# Jay International School

Personal Statement  
from the  
Managing Trustee

## JAY INTERNATIONAL SCHOOL

I believe that each child is special and has unique talents that we as educators need to nurture.

My prime goal is for each child to flourish in a happy, safe and positive environment. My commitment is towards high standards of performance, behavior and appearance.

Jay International School offers students a level of education that provides them with skills and confidence to continue learning at a higher level throughout their lives.

The systems and structures support academic excellence, sporting and cultural participation and achievement.

Jay International School is centred on Human values and a holistic education based on respect for each person. The positive support of teachers, parents and the school body ensures that students here prosper in body, mind and spirit.

I extend to you a warm welcome to come and experience the Jay Way.

**Dharmendra V. Mehta**

# We believe:

## MISSION STATEMENT OF THE SCHOOL

The school commits itself to the presentation of appropriate skills and knowledge, and to help children apply these skills and knowledge in a world of rapid change with respect for the basic spiritual, moral, social and cultural values that comprise the international community.

Children should understand the importance of commitment and responsibility as integral components of self discipline.

The school is responsible for the development of the whole child by providing programmes that meet their physical, emotional, creative and intellectual needs.

The roles played by all members of the school community, students, parents and staff is mutually supportive and interdependent.

We believe that the school must nurture effective channels of communication within and beyond the school community.

We undertake to ensure that the philosophy of the school is reviewed regularly so that it matches the basic beliefs of the school community.

# our facilities

With facilities that support excellence in all areas, **Jay International School** is among the best-equipped schools in India. The infrastructure has been suitably planned to accommodate learning, leadership development and an international curriculum.

**Classrooms** are spaciouly designed to seat 20 students, and are equipped with **play areas for students, projection systems, Laptop facilities** and **lockers**.

At each level of education: primary, secondary & higher secondary - Jay International School is well-equipped with high quality books and materials specifically chosen to support the children's learning across the curriculum areas.

As we say that Language shapes the way we think, and determines what we can think about. JIS focuses on developing **British ascent, American ascent**, and many more in language lab. "Arithmetic is numbers you squeeze from your head to your hand to your pencil to your paper till you get the answer". Yes, the Math lab is a state-of-art mathematics laboratory for our school.

A sophisticated IT infrastructure integrates offline and online learning, and provides access to information through a well-stocked **learning resource centre** (library), and digital hook-ups with Internet and online libraries. In addition to computer laboratories, computers are available in all classrooms, library, hostel and staff rooms for teachers.

Due to the challenge of innovating for the emerging markets, we use a research paradigm in which we combine two or more of the four critical elements of innovation: usage, design, business and technology. At JIS we encourage design thinking as a tool for change and improvement, for which we have a **Design and Technology Lab**.

The purpose of education is not to create people with heads crammed full of knowledge, but to rear children who know how to efficiently use the whole brain. Rearing children with enormous ability, rich creativity, and the capability to make use of high proportion of their **Mid Brain** is the goal of child rearing at Jay International

The Gen new has to be equipped with the cutting edge technological knowledge & simultaneously has to be provided with a platform to test the skills & ability. The curriculum of our school is inclusive of theoretical & practical knowledge accentuated by **Youth Fiesta**. It is a synthesis of collective happenings and activities which provides floor to students to meet the global challenges and to apply the theoretical concepts which the students have acquired through their learning in the practical world. Through Brainstorming, Investigation and Reflection, Project Approach allows learners to embark on in-depth studies of topics of their choice, explore various resources for learning, and construct representations of their discoveries.

Merit in Sports and Games is expected to build students' character, confidence, team spirit and robustness. Sporting facilities have been planned with exacting attention to details. These include **Horse Riding, Swimming, Gymnastics, Rifle Shooting, Skating, Team Sports** and **Athletics**. The campus provides an exclusive integrated **Sports Complex**, containing an outdoor **track and field** facilities and a **Golf** driving range. Included on the campus are sprawling practice fields for **Football, Volleyball** and **Hockey**, a 400m eight - lane cinder track, **Basketball** and **Tennis Courts** and **Cricket** practice nets. The campus also provides indoor games like **Table Tennis, Carrom, Chess** and many more

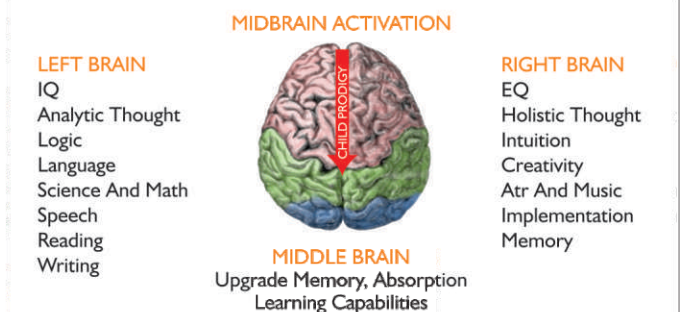

Jay International School in fulfilling its commitment to the vision of its Managing Trustee, lays emphasis on interwoven co-curricular activities namely debates, elocution, exhibitions in Sciences, Creative Designs and Craft work. The **Performing Arts, Visual Art** and **Music sessions** add a different dimension to the Creative Genius of the CHILD.

Separate boys and girls **residential facilities** are based on the 'house' concept, each under the close supervision of an experienced house-parent. Every living room module is based on semi-independent cabins, with assured individual privacy. This does much to reassure and support children who are away from home.

**Nourishing menus** and international cuisines are the hallmark of the Mess, where special care is taken to provide variety and taste in **vegetarian meals**. The kitchen is equipped with state of the art equipment to make each meal a **culinary experience**.

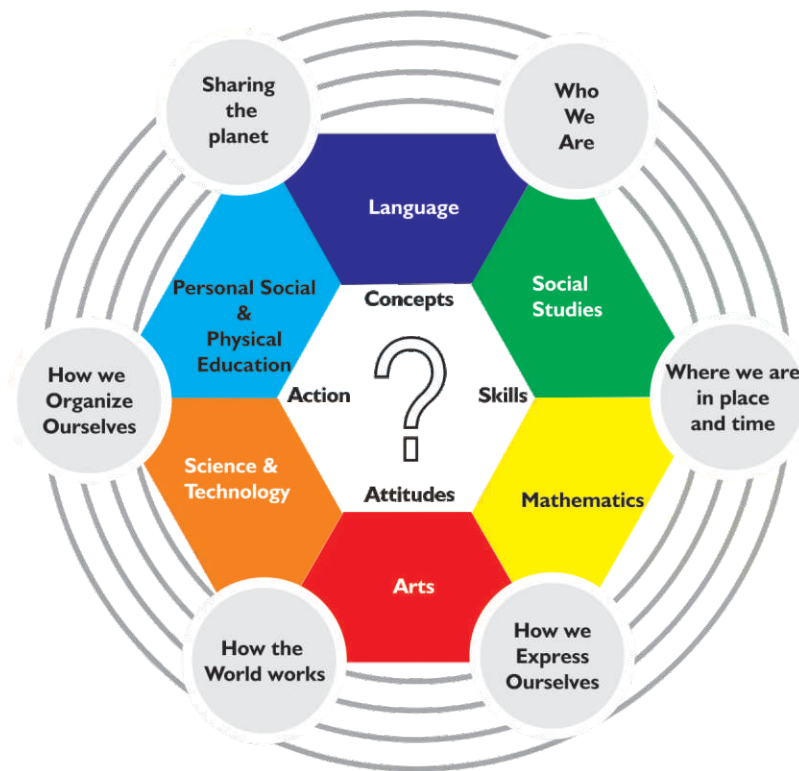

For quality recreation, the School boasts an **amphitheater** with facility to hold open-air functions for a capacity of over 1000.

Parking area within the school premises provides for adequate **parking spaces** for private cars and school buses.

## THE EDUCATIONAL PHILOSOPHY

The essential elements shown above are incorporated into this framework, so that students are given the opportunity to:

### OUR OTHER ASSOCIATES

- ▶ Field Marshal Blood Bank
- ▶ K. B. Sedalia Blood Component Centre
- ▶ Field Marshal Ambulance Service

### DLSS

The School is a DLSS(District Level Sports School) recognized by the Sports Authority of Gujarat. Here, at a young age, the sporting talents are nurtured with modern and scientific training, adequate nutrition and extensive tournament exposure combined with good education. It was started at JIS in the year 2017-18 and provides coaching to DLSS students in different games. DLSS is an unique and effective scheme launched by SAG which partners with reputed schools across the state of Gujarat.

### CBSE

Central Board of Secondary Examination is another Board offered as an option to the students of Jay International School. The Board in its latest version emphasizes on excellence in competitive exams, strengthened by continuous and comprehensive evaluation. The board is related to examination and career options, attempting to give the students an integrated approach to life, it has an activity based curriculum with Life Skill Education, Environment Education and Disaster Management Education.

“ Education is the manifestation of perfection in mankind. ”  
 — Swami Vivekananda
